

the ultimate in financial control

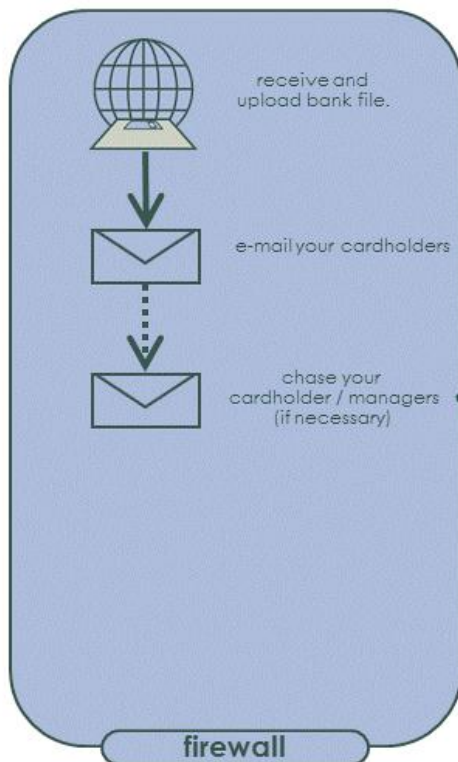

Tritorr products – Card BackOffice (CBO) Schematic.

← this is what you get ... →

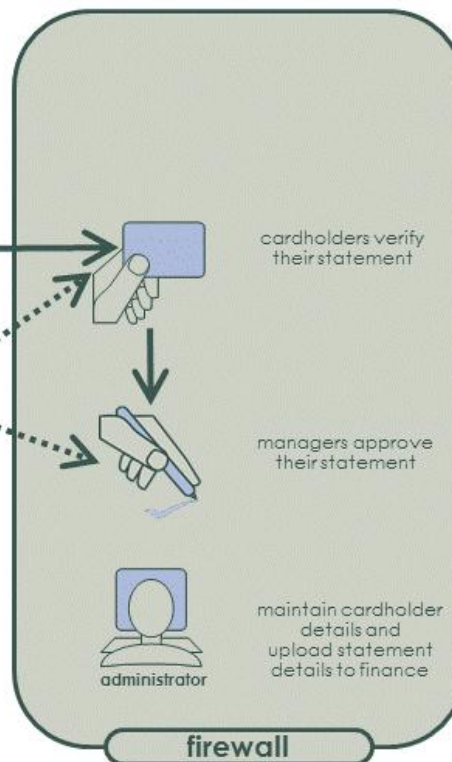

- analysis leading directly to savings
- help in avoiding fraud
- on-line access to full MI reporting
- improved financial control and audit
- a 100% web based 'single-click' solution
- no software installed on your computers
- low implementation costs
- low monthly running costs

- a simple, straightforward system
- low maintenance costs
- knowledge of exactly who is avoiding verification and approval actions
- confidence that if they fail to act, cardholders and managers have been actively chased and recorded
- requires minimal Administrator input
- support from an organisation that has been involved with card systems since 1996 (and before!)

this is what we do ...

and this is what you do ...

you can make it more complicated ... but why?
