

the ultimate in financial control

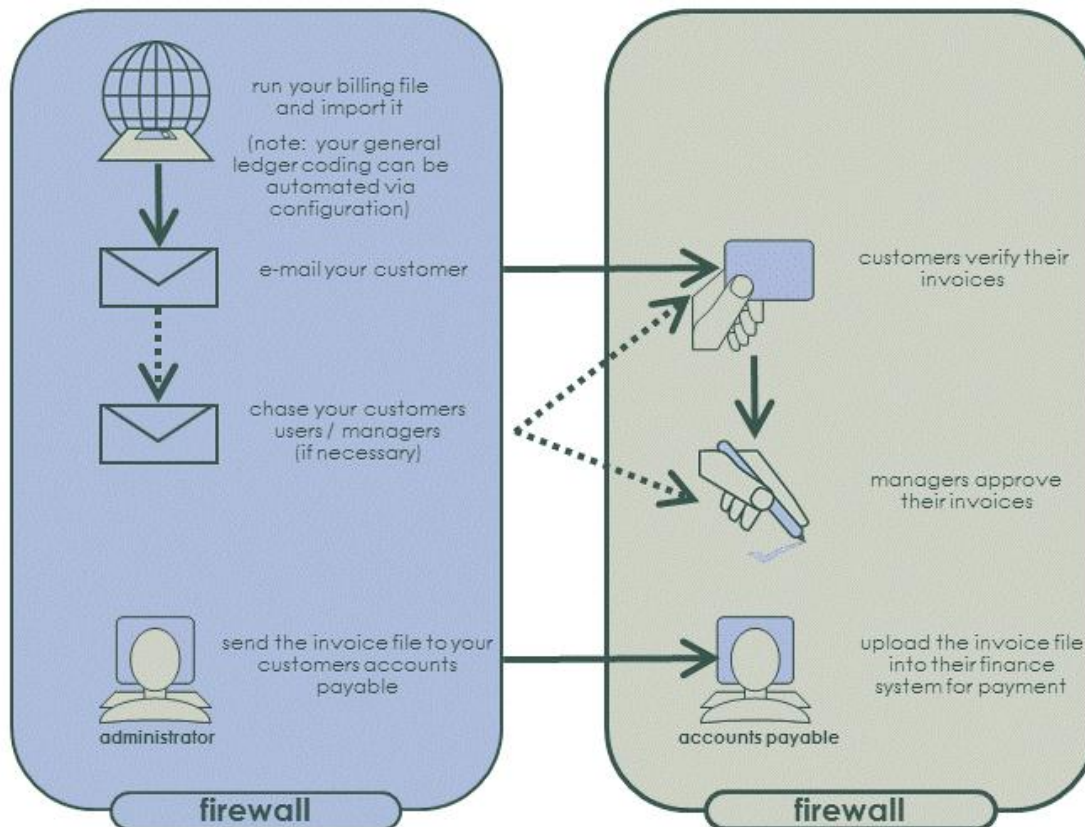

Invoice BackOffice (IBO) Exporting Invoices Schematic.

← this is what you get ... →

- save money
- save time and effort
- improve your customer service
- invoices actually arrive
- invoices arrive on time
- right on the desk of the customer
- no endlessly chasing mysterious users
- no software installed on your computers
- general ledger codes automated
- a 100% web based 'single-click' solution
- low implementation costs
- low monthly running costs
- low maintenance costs
- on-line access to full MI reporting
- an invoice file that is readily processed by your customer, with confidence
- a simple, straightforward visible and auditable correct-to-pay process

this is what you do ...

and this is what your customer does ...

" this is the holy grail of procurement "
